## GETTING STARTED

**WARNING: NEVER TRY TO INSERT OR REMOVE A GAME PAK WHEN THE POWER IS ON!**

- Turn the power **OFF** on your N64™.
- Insert the Game Pak into the slot on the N64™.  
Press firmly to lock the Game Pak in place.
- Turn the power switch **ON**. After the appearance of the title and legal screens, you may bypass at any time by pressing **START**.

## CONTROL STICK FUNCTIONS

The Nintendo 64 Control Stick uses an analog system to read the angles and directions of its movement. This allows precision control that is not possible using the conventional Control Pad.

When turning the Control Deck power **ON**, do not move the **Control Stick** from its neutral position on the controller.

If the **Control Stick** is held at an angled position (as shown in the picture on the left) when the power is turned **ON**, this position will be set as neutral. This will cause games using the **Control Stick** to operate incorrectly.

To reset the neutral position once the game has started, let go of the **Control Stick** so it can return to its center position (as shown in the picture on the left) then press **START** while holding down the **L** and **R Buttons**.

The **Control Stick** is a precision instrument, make sure not to spill liquids or place any foreign objects into it.

**DAMAGE METERS** - As the battle ensues, your green Damage Meter will diminish (turning red) as you take on damage. As your condition turns critical, a voice will prompt "Danger". This is the time to avoid your opponents punches and counter attack, or put away your opponent. When your meter is completely red, you're finished. Tie matches move to Sudden Death.

**WIN MARKER** - When you fight and win, a marker will appear, representing each win. The first player to achieve two markers wins the bout.

**COMBO DAMAGE** - God's can inflict heavy damage with multiple punch combos. When you land a nice combo, the damage percentage will briefly appear on-screen. It displays the amount of hits landed and the percentage of damage that was inflicted.

## THE WARGODS

**Cy-5**

The power of The Ore is timeless. In the year 2096, scientists will implant The Ore into CY-5, an advanced cyborg, unaware that the Ore has life-giving power.

CY-5 will kill the scientists. It will conclude that more Ore is needed for greater human consciousness.

CY-5 will fight in a ruthless, systematic manner to achieve its goal.

## THE WARGODS
