Right C Button:	Change dashboard display
Left C Button:	Not used
Start:	

Tips and Tricks

*At the start of a race, press the accelerator (the A Button) just before the blue light comes on. If timed right, you'll get a rocket powered kick to launch yourself ahead of the other racers!

* If you are at the back of the pack, press the R Button just as the Rocket Jump starts. If you jump right before you hit the Kart in front of you, you should be catapulted into the lead!
